

FACE-FRAMING HIGH BUN

This look is ideal for straight to wavy hair with fine to medium hair texture.

*A modern take on a classic silhouette, this face-framing high bun style is a nod to timeless looks, like Audrey Hepburn in the iconic movie *Breakfast at Tiffany's*, but with a touch of 90's "cool-girl" supermodel flair.*

STYLE

STEP 1

Divide hair into two sections above the ear and clip up top section.
Tease at the root using the styling comb, then spray MoroccanOil Luminous Hairspray Strong in a Z motion along teased hair at the root.

STEP 2

Use the MoroccanOil Everlasting Curl Titanium Curling Iron to curl large sections away from the face on both sides, forming a bend in the hair. Repeat on top section.
Apply MoroccanOil Dry Texture Spray globally to create definition and add texture.

STEP 3

Separate fringe area and clip with MoroccanOil Styling Clips.
Gather remaining hair into a high ponytail and secure with a hook ponytail.

STEP 4

Attach mesh bun to the front of the ponytail, secure with bobby pins, and wrap the ponytail around the mesh bun to form a high bun shape.
Apply MoroccanOil Texture Clay to enhance lift in the face-framing fringe area, and to add detail and definition to the overall style.
