

## MID-HEIGHT TEXTURED PONY

This look is ideal for straight to wavy hair with fine to medium hair texture.

---

The mid-height ponytail offers a flattering profile that says she's confident with her hair being pulled away from her face, while the textured and voluminous curls say she's ready to dance the night away.

# STYLE

## STEP 1

Part hair laterally at the ear and spray with Perfect Defense. Curl the first section by wrapping the hair around the Moroccanoil Everlasting Curl Titanium Curling Iron in alternating directions, leaving the ends out. Create a parting at the temples and repeat the curling technique in the next section.

## STEP 2

Divide the remaining mohawk section into parallel subsections and spray with Moroccanoil Dry Texture Spray. Tease and over-direct the hair, continuing the curl pattern. Establish side part from the front. Tease and shape face-framing pieces, then set with Moroccanoil Luminous Hairspray Strong.

## STEP 3

Clip away face-framing pieces that will not be part of the ponytail. Gently gather all the remaining hair into a ponytail and shift upwards until a mid-height level is reached. Secure ponytail using a hook ponytail. Take a 1-inch subsection at the bottom of the ponytail and clip the remaining hair upwards.

## STEP 4

Tease the subsection at the root, spraying with Moroccanoil Dry Texture Spray. Repeat teasing of subsections throughout the ponytail, adding lift and volume. Add detail work to the style with Moroccanoil Texture Clay to lift the fringe area. Apply Moroccanoil Smoothing Lotion where needed to prevent dry ends in the ponytail.
