**4. First-Aid Measures****4.1 Description of first aid measures****General advice**

Consult a physician. Show this safety data sheet to the doctor in attendance.

Eye Contact.....	Flush eyes with water at least 15 minutes. Get medical attention if eye irritation develops or persists.
Skin Contact.....	If skin problems occur, discontinue use. If skin irritation persists, call a physician
Inhalation.....	Remove exposed person to fresh air using protective equipment. If breathing has stopped, perform artificial respiration. Get medical attention promptly

Ingestion..... Do not induce vomiting. Give large quantities of water. Never give anything by mouth to an unconscious person. Call physician immediately.

### **6.1 Personal precautions, protective equipment and emergency procedures**

Use personal protective equipment.

### **6.2 Environmental precautions**

Should not be released into the environment. Prevent further leakage or spillage if safe to do so. Do not let product enter drains.

### **6.3 Methods and materials for containment and cleaning up**

Small Spill: Absorb with an inert material and put the spilled material in an appropriate waste disposal.

Large Spill: Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see section 1 for emergency contact information and section 13 for waste disposal.

#### 6.4 Reference to other sections

For disposal see section 13.
