

1. Identification of the Substance/Preparation and of the Company / Undertaking

SDS compliant with regulations – (EC) No 1907/2006 (REACH), (EC) No 1272/2008 (CLP)

1.1: Identification of the substance/mixture and of the company/undertaking

Product Identifier.....	MOROCCANOIL HAND SANITIZER
Reach Registration number.....	No information available
Product name.....	MOROCCANOIL HAND SANITIZER
Product code.....	No information available
Product type.....	N/A
EC-No.	N/A
Formular.....	N/A

1.2: Relevant identified uses of the substance or mixture and uses advised against

Identified uses	Personal care
Main use category.....	Personal care

1.3: Company/undertaking identification

Supplier.....	Moroccanoil DE GMBH, Moroccanoil UK
Company telephone number.....	1-888-700-1817
Company contact person.....	Idan Avishay

Emergency telephone number..... 1-888-700-1817

2. Hazards Identification

2.1. classification of the substance or mixture

This substance is classified as dangerous

Classification according to Regulation (EC) No 1272/2008 [EU-GHS/CLP]

Classification according to EU Directives 67/548/EEC or 1999/45/EC

2.2. Label elements

Labelling according Regulation (EC) No 1272/2008 [CLP]

Pictogram..... 

Signal word..... Danger

Hazard statement(s)

H225..... Highly flammable liquid and vapour

H319..... Causes serious eye irritation.

Precautionary statement(s)

P233.....	Keep container tightly closed.
P210.....	Keep away from heat/sparks/open flames/hot surfaces. No smoking.
P241.....	Use explosion-proof electrical /ventilating /lighting equipment.
P280.....	Wear protective gloves / eye protection / face protection.
P240.....	Ground/bond container and receiving equipment.
P242.....	Use only non-sparking tools.
P243.....	Take precautionary measures against static discharge.
P264.....	Wash hands thoroughly after handling.
P305+P351+P338.....	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P501.....	Dipose of contents/container in accordance with local/regional/national/international regulations
P303+P361+P353.....	IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower
P337+313.....	If eye irritation persists: Get medical advice/attention
P370+P378.....	In case of fire: Use to extinguish: CO2, Powder or water spray.
P403+P235.....	Store in a well-ventilated place. Keep cool

Supplemental Hazard Statements

none

2.3. Other hazards - none

3. Composition/Information on Ingredients

3.1 Mixtures

Synonyms	MIXTUR
Formula	N/A
Molecular Weight	N/A

Dangerous Component		Classification	concentration
Ethanol			
CAS-No.	64-17-5	H225, H319	70%
EC-No.	200-578-6		
Annex I number	603-002-00-5		

For the full text of the H-Statements mentioned in this Section, see Section 16

4. First-Aid Measures

4.1 Description of first aid measures

General advice

Consult a physician. Show this safety data sheet to the doctor in attendance.

Eye Contact.....	In case of eye contact, rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Seek immediate medical attention.
Skin Contact.....	In case of skin contact, immediately remove contaminated clothing and wash affected areas with water and soap. Seek medical attention if symptoms occur.
Inhalation.....	If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Seek medical attention if breathing problems develop.
Ingestion.....	If swallowed, do not induce vomiting. If vomiting occurs spontaneously, keep head below hips to prevent aspiration. Do not give anything by mouth to an unconscious person. Seek immediate medical attention.

4.2 Most important symptoms and effects, both acute and delayed

No data available

4.3 Indication of any immediate medical attention and special treatment needed

No data available

5. Fire-Fighting Measures

5.1 Extinguishing media

Dry chemical, CO₂, water spray or alcohol-resistant foam.

5.2 Special hazards arising from the substance or mixture

Hazardous combustion products include oxides of carbon. Product is highly flammable.

Vapours may travel considerable distances to a source of ignition where they can ignite, flashback, or explode. Closed containers may explode when exposed to extreme heat. Containers close to fire should be removed if safe to do so. Use water spray to cool fire exposed containers.

5.3 Advice for firefighters

When fighting a major fire wear self-contained breathing apparatus and protective equipment.

5.4 Further information

N/A

6. Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Wear approved respiratory protection, chemical resistant gloves, protective clothing and safety boots. Evacuate all non-essential personnel from affected area. Do not breathe vapours. Ensure adequate ventilation. Extinguish all sources of ignition. Avoid sparks and open flames. No smoking.

6.2 Environmental precautions

In the event of a major spill, prevent spillage from entering drains or water courses.

6.3 Methods and materials for containment and cleaning up

Stop leak if safe to do so and absorb spill with sand, earth, vermiculite or some other absorbent material. Collect the spilled material and place into a suitable container for disposal. Use only non-sparking tools.

6.4 Reference to other sections

For disposal see section 13.

7. Handling And Storage

7.1. Handling

Handling.....	Use of safe work practices are recommended to avoid eye or skin contact and inhalation of vapours. Use only outdoors or in a well-ventilated area. Take precautionary measures against static discharge. Food, beverages and tobacco products should not be stored or consumed where this material is in use. Always wash hands before smoking, eating, drinking or using the toilet. Wash contaminated clothing and other protective equipment before storage or re-use. Provide eyewash fountains and safety showers in close proximity to points of potential exposure.
Handling temperatures.....	No data available

7.2. storage

Storage..... Store in a cool, dry and well ventilated area. Keep container tightly closed when not in use. Protect from heat, sparks, open flames and other sources of ignition. Keep away from strong oxidising agents, acids, alkalis, amines and alcohols.

7.3. special use(s) and requirements

Product transfer/packing requirement..... Keep the product in its original packing system.
 Recommended materials..... No information available
 Unsuitable materials..... No information available

8. Exposure Controls / Personal Protection

8.1 Control parameters

Components with workplace control parameters

8.2 Exposure controls

Personal Protective Equipment:

Hand, Skin and Eye protection..... PVC, PVA, nitrile, neoprene, rubber or vinyl gloves. See Australian/New Zealand Standard AS/NZS 2161 for more information. When selecting gloves for use against certain chemicals, the degradation resistance, permeation rate and permeation breakthrough time should be considered. Occupational protective clothing (depending on conditions in which it has to be used, in particular as regards the period for which it is worn, which shall be determined on the basis of the seriousness of the risk, the frequency of exposure to the risk, the characteristics of the workstation of each worker and the performance of the protective clothing).

Respiratory Protection..... Use an approved half-face respirator with organic vapour cartridge under conditions where exposure to the substance is apparent (e.g. generation of high concentrations of mist or vapour, inadequate ventilation, development of respiratory tract irritation) and engineering controls are not feasible.

Body Protection The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

9. Physical And Chemical Properties

9.1. general information

Appearance.....	Fluid Gel
Colour.....	Slightly hazy
Odour.....	Characteristic

9.2. important health, safety and environmental information

Initial boiling point and boiling range.....	No data available
Flash point.....	12 °C
Melting point/freezing point.....	-117 °C
Initial Boiling Point/Boiling Range.....	78 °C
Density.....	0.87 – 0.88
Specific Gravity.....	No data available
Solubility in water.....	Soluble
PH.....	5.00-5.50

10. Stability And Reactivity

10.1 Reactivity

No data available

10.2 Chemical stability

This material is stable when handled and stored at recommended temperatures.

10.3 Possibility of hazardous reactions

No data available

10.4 Conditions to Avoid

Heat, sparks, open flames and other sources of ignition.

10.5 Incompatibilities with Other Materials

Strong oxidising agents, acids, alkalis, amines and alcohols.

10.6 Hazardous Decomposition Products

Oxides of carbon

10.7 Hazardous Polymerization

Under normal conditions of storage and use, hazardous polymerization will not occur.

11. Toxicological Information

Acute toxicity – oral.....	7060 mg/kg (rat)(for ethanol)
Acute toxicity – derma.....	No data available

Acute toxicity – inhalation..... 20000 mg/l (rat) (for ethanol)

11.1. Effects and symptoms

Symptoms/injuries after skin contact.....	May cause irritation to the skin, redness and itchiness
Symptoms/injuries after inhalation.....	May cause irritation to the nose, throat and respiratory system , dizziness, headache and possible confusion.
Symptoms/injuries after eye contact.....	Causes eye irritation, tearing, pain, stinging and blurred vision.
Carcinogenicity	This product does NOT contain any IARC listed chemicals.

11.2. other information

Hazchem code.....	2YE
Potential health effects	no data available

12. Ecological Information

12.1. Ecotoxicity	No data available
12.2. Environmental Fate	No data available
12.3. Physical/Chemical	No data available
12.4. Bio accumulative potential	No data available

13. Disposal Considerations

13.1. ecological aspects

Ecological general.....	Dispose according to applicable local and state government regulations.
-------------------------	---

13.2. disposal instructions

Waste disposal.....	Dispose of in accordance with local regulations
Product disposal.....	Dispose of in accordance with local regulations
Container/package disposal.....	Dispose of in accordance with local regulations
Disposal precautions.....	Use Personal Protective Equipment as per Para 8.

13.3. EU and local legislation

ISRAELI legislation - Licensing of Businesses Regulations (Disposal of Hazardous Wastes), 1990.

EU - Directive 91/689/EEC on hazardous waste

14. Transport Information

DOT Classification.....	UN1170, ETHANOL SOLUTION (ETHYL ALCOHOL SOLUTION) CLASS 3, PGII.
ADR.....	UN1170, ETHANOL SOLUTION (ETHYL ALCOHOL SOLUTION) CLASS 3, PGII.
IMDG Code.....	UN1170, ETHANOL SOLUTION (ETHYL ALCOHOL SOLUTION) CLASS 3, PGII.
ICAO.....	UN1170, Ethanol Solution (Ethyl Alcohol Solution) CLASS 3, PGII.

15. Regulatory Information

This safety datasheet complies with the requirements of Regulation (EC) No. 1907/2006.

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

15.2. Chemical Safety Assessment

No data available

15.3. compliancy additional legislation

ISRAELI legislation - Hazardous Substances Law, 1993, Licensing of Businesses Regulations (Disposal of Hazardous Wastes), 1990, Hazardous Substances Regulations (Import and Export of Hazardous Wastes), 1994, Licensing of Businesses Regulations (Hazardous Industrial Plants), 1993, transport services law, 1997, Licensing of Businesses Regulations (oil storage), 1976.

16. Other Information

Text of H-code(s) mentioned in Section 3

H225..... Highly flammable liquid and vapour
 H319..... Causes serious eye irritation.

Reach references.....	Not registered
Revision date.....	20.1.2021
Revision information.....	New Addition
Other information.....	Not available
